#### Mediakit 2025 EVERYTHING YOU NEED TO KNOW

# ACHTSNL

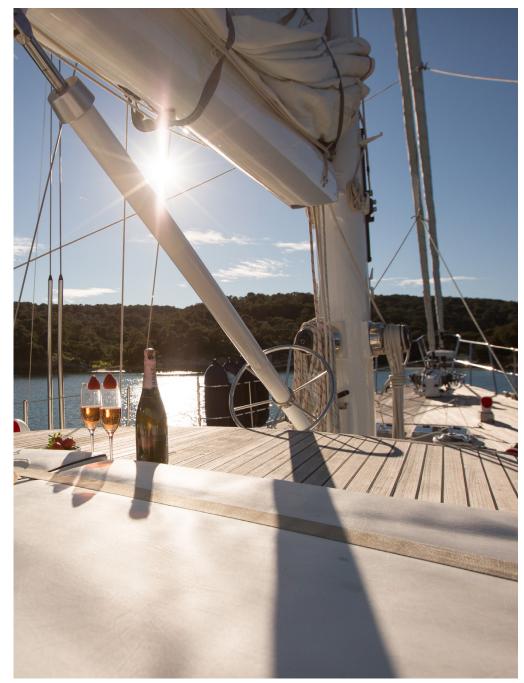

#### Intro who we are

Yachtsnl is first and foremost an international data portal, providing reliable data on all Dutch-built yachts, from 18 meters upward. With a background of over 45 years' experience in the international brokerage industry and new construction projects, we have the knowledge and expertise available to take the first steps in making the Dutch yachting industry more accessible for the (future) yacht owners, crew, and industry professionals.

For our visitors, the portal forms a complete knowledge centre of the Dutch yachting industry, with in-depth articles and information on Dutch shipbuilders and yards, designers, suppliers and brokers in Dutch-built yachts. For companies there is the option to link their website to the portal to create a direct connection with the visitors, which is convenient for the visitor as well as the company itself.

Our mission is to give a complete, transparent insight in the Dutchbuilt yachting industry by collecting and sharing reliable first-hand yacht data. In addition we deliver background information regarding the Dutch yachting industry, and provide a service platform to bring customer and companies directly in contact with each other.

## Transparency

All data will be available for everyone. Every visitor of our site has access to the data provided, for free or after payment.

# Quality

We do our best to make sure that all data and information available on the portal is correct and up-to-date. Missing or incorrect data will be adjusted accordingly as soon as possible.

## Service

Our portal is very user friendly and every visitor needs to find the data they are looking for easily. Open and direct communication between us and the visitors and industry companies is essential.

# **Specialism**

Over the last 50 years, Yachtsnl has collected the sales data on this niche of the yacht market, giving us a true insight of the industry and sales history of the yachts.

#### Audience MEET OUR VISITORS

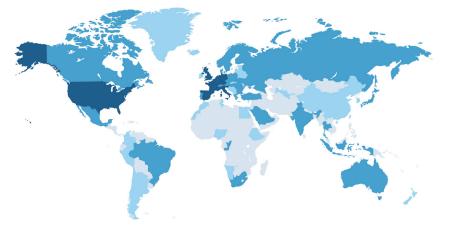

#### "QUALITY NOT QUANTITY"

When it comes to our audience, we believe in offering quality content and as a result attracting quality visitors. People who are specifically interested in owning, purchasing or simply loving Dutch-built yachts.

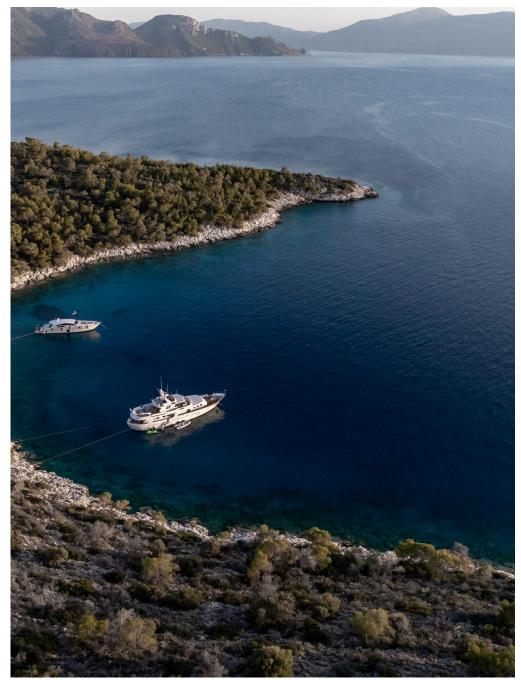

#### DEMOGRAPHIC & INTERESTS

The main demographic is male, in his late forties and living in Europe or the USA. While he mainly uses his computer to research yachts, he also uses his mobile or tablet.

It's no surprise that the main interests of this demographic are automobiles, planes, yachts and other luxury vehicles. Other interests include watersports, traveling, and real estate. Looking at these interests, next to reliable and informative yacht data, articles regarding watersport news, travel itineraries and more technical industry news would be an extra way to grab the attention.

#### Website SPONSORED CONTENT

The best way to showcase your company is through an in depth article where the reader has the opportunity to really get to know your company and services. It's an informal way to show your expertise and introduce yourself. The article will be pushed on our homepage, social media accounts, our newsletters, and your company profile page.

When Balk Shipyard opened its doors over 225 years ago, it began as a traditional fishing vessel builder. The company later shifted to steel and aluminium barges and small yachts in the 1990s before focusing on building and refitting superyachts a few years later. In 2002, Balk Shipyard was granted an exclusive Royal Seal of Approval, symbolising the confidence that the Dutch Royal Family has in the company. The fast-growing yard needed to expand from its original facilities in Elburg, the Netherlands, to the picturesque harbour town of Urk in 2004.

It has been a busy period for the Dutch refit and rebuild shipyard, with comprehensive refit CATEGORIES and rebuild projects, a gorgeous new-build sailing yacht and numerous maintenance works all underway simultaneously. Thanks to its state-of-the-art facilities, construction halls, dedicated workshops, and first-class warehouse, undertaking numerous large projects poses no challenge for Balk Shipvard.

There are three state-of-the-art construction halls, all of which are air-conditioned and equipped with eco-friendly floor heating. Air humidity, compression, and temperature can all be regulated, ensuring that all work is completed under optimal conditions. Each hall is equipped with a rail system connected to the slipway and an overhead crane

#### Website FEATURED YACHT

A sponsored yacht will be promoted on the homepage and all separate yacht pages, which adds up to more than 1600 individual pages. Furthermore, the yacht will also be shown at the top of the All Yachts and Yachts for Sale pages, which means that this yacht is the first yacht the visitor sees on almost every page. The yacht will also be pushed on our social media accounts and weekly newsletters.

# **Company Profile**

EXTENSIVE PROFILE

Our visitors come to the portal in search of reliable information about the Dutch yachting industry. This offers a unique opportunity for any company affiliated with this industry to introduce and highlight their business to a specific target audience.

The most efficitve way to showcase your company is to choose for an extensive company profile page, where you can upload your logo, images, company description and video. You also have the option to link your social media accounts and share your latest posts. All news articles related to your company will be added to your profile, and you can select the Dutch-built yachts your company has worked on.
